International Conference on “Food Innovations, Food Allergies and Traditional Foods”

(FIFATF-2026)

(HYBRID MODE)

(14-15, September 2026)

Organized by

Department of
Food Engineering and Technology

Sant Longowal Institute of Engineering
and Technology, Longowal (Punjab)
(Deemed University under MoE, Govt. of India)

<http://www.fifatf.org>

Scope of conference

The aim of the conference is to provide a platform to bring together faculty, researchers, Scientist, engineers, research scholars and industrial experts for exploring innovative ideas for future research, exchanging the latest research advancements in advanced and emerging fields of food processing, preservation, analysis and their technological applications. The young scientists, engineers, research scholars, and students will have a chance to present their research to experts in their respective fields. Participants will also have the opportunity to establish research collaborations with industry and academia through various interactive sessions with experts. To provide participants with a platform, the Sant Longowal Institute of Engineering and Technology, Longowal, has taken the initiative to organise a National Conference on “Food Innovations, Food Allergies & Traditional Foods” (FIFATF-2026). **The conference will be conducted in HYBRID MODE (Both Online and offline).**

Topics covered in the conference

- Food Processing and Analytical Innovations
- Food Allergies and Allergen Management
- Research on Traditional foods with GI Importance
- New product development (NPD): Advancement and challenges
- Application of AI, ML and Multivariate techniques in process and product optimization
- Modelling and simulation in food process applications
- Transducers, actuators and sensors application
- Engineering properties of foods
- Biomaterials, nanotechnology and Biosystems
- Nutraceutical, Functional and Fermented foods
- Gums and hydrocolloids
- Food Processing, Packaging and Food Security
- Cleaner production, Advanced separation techniques, Bio-reactor design and Waste management

Submission of Abstract & Paper

Papers are invited for the oral and poster presentations. Authors may submit an abstract limited to 250 words containing the title, brief introduction, objectives, methodology and major findings of the paper. It should be typed in MS Word, Times New Roman, 12-point font, single spacing, with one-inch margins on all sides. The corresponding author should be marked with an asterisk (*). The name of the presenting author should be underlined. The abstract must include the affiliations of all authors along with email addresses. Papers will be selected for presentation based on a review by a subject-matter expert. The presenting and registered author will receive a participation certificate. Authors are required to submit their original, unpublished research for presentation (**HYBRID MODE**) at the conference. Selected papers will be published in a book or books with an ISBN. Only one paper per registered participant will be considered for publication; however, a participant may be a co-author on more than one paper.
